## Commonwealth of Massachusetts.

### BOARD OF RAILROAD COMMISSIONERS.

No. 20 BEACON STREET, BOSTON.

### RULES

*Prescribed by the Board of Railroad Commissioners, under sections 92 and 97, chapter 111, Revised Laws, in regard to Records of land purchased or acquired for railroad purposes, or of Railroad Locations, and the Manner of keeping the Same.*

- RULE 1. Location maps shall be made upon a scale <sup>showing not more</sup> of ~~not less~~ than four hundred feet to the inch, upon cloth-backed paper, and shall be firmly bound for record in books eighteen (18) inches from top to bottom, and thirty (30) inches from back to front.
  - RULE 2. Said maps shall show the courses of the tangents and the radii of the curves of the centre line of the railroad in question; the widths of land taken, specifying such width on each side of the centre line; also the courses of the division lines between the lots over which the location is made, and the distance between them on the centre line. When the land purchased or taken is entirely on one side of the centre line of location or outside the location, the description shall be so made as to tie the boundary lines of the lot to the centre line by lines, the courses and distances of which from a fixed point or points on said centre line shall be given. Where but one track is laid, the position of such track with reference to the centre line shall also be shown, in order that the boundaries of land may hereafter be determined by measurements from the track as laid, if the same shall not have been changed. Where two tracks are laid it shall be specified whether the centre line is the centre line of one of them or is midway between them.
- Note. — The courses called for above may be either *magnetic* or *true*, but the maps and descriptions must specify which are given.
- RULE 3. The description in writing must in all cases correspond with the map, and the two taken together must have the substantial certainty and precision of a deed. (2 Gray, 580.)
  - RULE 4. The location shall be certified by the Directors of the Corporation, or by the President, if authorized by a vote of said Directors.
  - RULE 5. The location, when deposited with the Clerk of the County Commissioners, shall be kept for preservation and convenient reference in the office of said clerk, in a cabinet used exclusively for that purpose, and furnished with shelves sufficient to allow at least one separate shelf for the maps of each corporation owning a railroad within the county.
  - RULE 6. A book shall be kept in the office of each clerk, in which shall be recorded the name of every location, the time when it was filed, and the shelf where it is deposited.
  - RULE 7. No location after it has once been filed shall be taken from the office of the clerk for any purpose except upon the order of a court or other proper authority.

By order of the Board,

CHARLES E. MANN, *Clerk.*

February 1, 1905.
