Norfolk, ss.

To the Honorable the County Commissioners of the County of Norfolk:

Under the provisions of Chapter 160, Section 104 of the General Laws, as amended, the Board of Selectmen of the Town of Westwood deem that public necessity and convenience require that University Avenue be laid out as a public way across the tracks, at grade, of the Penn Central Transportation Company and herewith respectfully petition your Board to lay out said way in accordance with the above mentioned statute.

April 24, 1973

This petition was presented to the Commissioners and duly entered at a meeting of said Commissioners, held at Dedham, aforesaid on the thirteenth day of November, 1973 by adjournment of their September meeting next preceding, a notice of said meeting having been posted as required by law: and the eleventh day of December, 1973 and nine-thirty o'clock in the morning at the Court House in said Dedham were appointed by the Commissioners as the time and place for commencing and proceeding to view the premises; and they thereupon caused a copy of said petition and of Order of Notice thereon, to be served upon the Clark of the Town of WESTWOOD, being the town within which such layout of crossing was prayed for, and upon the Penn Central Transportation Company, fifteen days at least before the time appointed for said view, and also caused copies of an abstract of said petition and of said order of notice to be posted in two public places in said town: and to be published in The Daily Transcript, a newspaper published in said County, said posting and publication having been seven days at least before the time appointed for said view, that all persons and corporation interested for or against said petition might then and there appear and be heard if they saw fit.

objected and, thereupon, the Commissioners, having examined the premises and having heard all parties interested, did adjudge that public convenience and necessity require the laying out of said UNIVERSITY AVENUE as a public way across the tracks of the Penn Central Transportation Company, at grade, as prayed for in said petition.

And thence the same was continued and adjourned to a meeting of said Commissioners held on the twelfth day of February, 1974, at which time and said Commissioners issued a partial decree adjudicating that public convenience and necessity required the laying out of UNIVERSITY AVENUE as a public way across the tracks of the Penn Central Transportation Company, at grade, as prayed for in said petition.

And on the said twelfth day of February, 1974, the County Commissioners requested the Department of Public Utilities to give their consent, in writing, to lay out this crossing as a public way, at grade, in accordance with the provisions of G. L. Chapter 160, Section 104.

And on the thirteenth day of March, 1974 the Department of Public Utilities gave the following consent, in writing:

ORDERED: That the Department hereby consents in writing to the proposal by the Selectmen of the Town of Westwood to the laying out of a public way designated as University Avenue and at the same level with tracks of the Penn Central Transportation Company in the Town of Westwood.

PROVIDED: That this consent is given with the provision: That the crossing shall be protected by A.A.R. type flashing light signals which shall be installed in a manner satisfactory to this Department; and it is

FURTHER PROVIDED: That said signal installation shall include supplementary cantilevered light units which shall extend across each half of the roadway a sufficient distance to insure proper focus of the signals being afforded along both approaches to the grade crossing; and it is

FUTHER PROVIDED: That the operation of the foregoing protection shall be initially activated by means of a manual control and automatically restored by the passage of trains across the crossing or in the case of a track movement by a rail confined vehicle other than a train, the protection shall be manually

initiated and manually restored; and it is

FURTHER PROVIDED: That the crossing warning signs required by section 140 and the distant warning signs by section 142, both of Chapter 160 of the General Laws, as amended, shall be reflectorized and of a type approved by the Department; and it is

FUTHER PROVIDED: That the Town of Westwood shall assume all costs for the installation and maintenance by the Penn Central Transportation Company of automatic flashing light signals which are to serve as the protection at the proposed grade crossing.

And now the Commissioners, in accordance with the provision of G. L. Chapter 160, Section 104, by courses and distances, metes and bounds, do lay out said UNIVERSITY AVENUE as a public way as prayed for in said petition.

And the lines of said location of said UNIVERSITY AVENUE are as follows:

The westerly line begins at a stone bound which is on the westerly line of UNIVERSITY AVENUE and the southerly line of the Penn Central Transportation Company Lead Easement "C-1"; thence N-19-28-43-E, 55.13 ft. to a stone bound which is on the northerly line of the Penn Central Transportation Company Lead Easement "C-1" and the westerly line of said UNIVERSITY AVENUE.

The easterly line begins at a stone bound which is on the easterly side of UNIVERSITY AVENUE and the southerly line of the Penn Central Transportation Company Lead Easement "C-1", said bound being S-79-31-17-E, 65.89 ft. from the first bound on the westerly line as above described; thence northwesterly and northerly by a 20.00 ft. radius curve 14.57 ft. to a stone bound; thence N-19-28-43-E, 31.52 ft. to a stone bound which is on the northerly line of the Penn Central Transportation Company Lead Easement "C-1" and the easterly line of said UNIVERSITY AVENUE; said bound being S-70-31-17-E, 56.05 ft. and by a 338.45 ft. radius curve 3.95 ft. respectively from the last bound on the westerly line as above described.

The easterly line heretofore described, in general, is 60.00 feet easterly from and parallel to the westerly line.

And the said Commissioners do hereby take for the purposes of a highway all the easements and rights incident to a public highway in the lands included within the lines of location

hereinbefore described, all as shown upon a plan entitled "Plan of University Avenue, Westwood, Laid out as a Public Way across the tracks of the Penn Central Transportation Company as made by the Norfolk County Commissioners by Return dated April 9, 1974. Scale: 1 inch = 20 feet. Alvah L. Downs, County Engineer" and signed by "James J. Collins, Chairman" which plan is filed herewith and made a part of this return in accordance with the provisions of Chapter 79 of the General Laws and all acts and amendments thereof and in addition thereto:

And the Commissioners order that the travelled way portion of UNIVERSITY AVENUE be constructed and maintained by the Town of Westwood not less than forty (40) feet in width as shown on the plan heretofore mentioned.

And the Commissioners further order that the Town of Westwood shall assume all costs for the installation and maintenance by the Penn Central Transportation Company of automatic flashing signals which are to serve as the protection at the proposed grade crossing.

And permanent stone bounds will be erected at the termini and angles of said way located as aforesaid.

And the Commissioners determine that proper measures shall be taken for the protection of the public which will meet with the approval of the Department of Public Utilities.

And the Commissioners have heard the proprietors of lands and property, rights and interests, taken or affected by these proceedings, and have considered and estimated the damages sustained in the premises, having had regard to all the damages done to the parties respectively whether by taking their property or injuring it in any manner, and having allowed by way of set off, the benefits, if any, to the property of said parties in the premises, and do estimate and determine the damages to be paid to said parties respectively in the sums hereafter named.

At a meeting of the County Commissioners for the County of Norfolk, held at Dedham, within and for said County, on the nineteenth day of November, 1974, by adjournment of their September meeting next preceding: a notice of said meeting having been posted as required by law:

The petition of Stephen Gordet and others of WESTWOOD, in said County, represents as follows:

Commonwealth of Massachusetts

Norfolk, ss
To the Honorable the County Commissioners of the County of Norfolk:

Respectfully represent your petitioners, inhabitants of the Town of Westwood in said County, that common convenience and necessity require that the way known as High Street, a public way in said town, be relocated between Mayfair Drive to Gay Street for the purpose of establishing the boundary lines of said way, making alterations in the course of width of said way and making repairs on said way.

Wherefore your petitioners pray that said way may be relocated within the limits above specified.

Dated October 28, 1969

Charles A. Mathys	147 Mill Street, Westwood
Alfred S. McIntyre	124 Phillips Brooks Road, Westwood
John W. Crawford	78 Lorraine Road, Westwood

This petition was presented to the Commissioners and duly entered at a meeting of said Commissioners, held at Dedham aforesaid on the sixteenth day of April, 1974, a notice of said meeting having been posted as required by law: and the twenty-first day of May, 1974 and two-thirty o'clock in the afternoon at the Court House in said Dedham were appointed by the Commissioners as the time and place for commencing and proceeding to view the

premises; and they thereupon caused a copy of said petition and of Order of Notice thereon to be served upon the Clerk of the Town of WESTWOOD, being the town within which such relocation of way was prayed for, fifteen days at least before the time appointed for said view, and also caused copies of an abstract of said petition and of said order of notice to be posted in two public places in said town: and to be published in The Daily Transcript, a newspaper published in said County, said posting and publication having been seven days at least before the time appointed for said view, that all persons and corporations interested for or against said petition might then and there appear and be heard if they saw fit.

And on the said twenty-first day of May, 1974 the Commissioners, James J. Collins, Thomas K. McManus and George B. McDonald, met at the time and place specified in said order, when and where the petitioners appeared and the Town of Westwood was represented by its Selectmen; and the said Commissioners then viewed the route and premises and heard all persons and corporations interested; and no party interested objected and, thereupon, the said Commissioners did adjudge that common convenience and necessity require that said way be relocated as prayed for in said petition.

And thence the same was continued and adjourned from time to time to this meetings.

And now the said Commissioners, by courses and distances, metes and bounds, do relocate said High Street as prayed for in said petition.

And the lines of said relocation of said High Street are as follows:

Beginning at a stone bound on the present southerly line of High Street as laid out by the Norfolk County Commissioners by Return dated February 1900; said bound being about 800 ft. westerly of Church Street; thence northeasterly and easterly by a 1200.00 ft. radius curve, 653.80 ft. to a stone bound which is on the southerly line of High Street as laid out by the Norfolk County Commissioners by Return dated June 29, 1926; thence N-75-56-00-E, 128.06 ft. by said 1926 southerly line to a brass plug at Church Street.

SEPT.

And the said Commissioners do hereby take for the purposes of a highway all the easements and rights incident to a public highway in the lands included between the above-described line and the southerly line as previously laid out by the Norfolk County Commissioners and the grace thereof is established, all as shown upon a plan entitled "Plan and Profile showing the Relocation and Widening of High Street, Westwood between a point about 800 ft. westerly of Church Street and Church Street as made by the Norfolk County Commissioners by Return dated November 19, 1974. Horizontal Scale: 1 inch = 40 feet. Vertical Scale: 1 inch = 8 feet. Alvah L. Downs, County Engineer" and signed by "James J. Collins, Chairman" which plan is filed herewith and made a part of this return in accordance with the provisions of Chapter 79 of the General Laws and all acts and amendments thereof and in addition thereto.

And the said Commissioners do likewise take temporary easements in lands adjoining the location of said way as hereby established, consisting of the right to have the lands of said location protected by having the surface of the adjoining land slope from the lines of said location as indicated on said plan. Said temporary easements to be in effect only until said way is constructed to the full width of the layout as above described and a certificate to that effect has been duly filed by the County Commissioners with their official records.

And the said County Commissioners do likewise further take a temporary easement for the purpose of causing the removal of any and all structures and buildings on the parcel of land shown on said plan as Parcel 2TR containing 5,110 square feet of land, more or less, and being bounded and described as follows:

Horizontal Scale: 1 inch = 40 feet. Vertical Scale: 1 inch = 8 feet Alvah L. Downs, County Engineer." and signed by "James J. Collins, Chairman" which plan is filed herewith and made a part of this Return in accordance with the provisions of Chapter 79 of the General Laws, and all acts and amendments thereof and in addition thereto.

And the said Commissioners do likewise take temporary easements in lands adjoining the location and said way as hereby established, consisting of the right to have the lands of said location protected by having the surface of the adjoining land slope from the lines of said location as indicated on said plan. Said temporary easements to be in effect only until said way is constructed to the full width of the layout as above described and

a certificate to that effect has been duly filed by the County Commissioners with their official records.

And the said Commissioners do likewise further take for the purpose of properly draining said way easements and rights in Parcels 22A and 23 A as indicated on said plan, being more fully described as follows:
