Town of WESTWOOD, being the town within which such relocation of way was prayed for, fifteen days at least before the time appointed for said view; and also caused copies of an abstract of said petition and of order of notice to be posted in two public places in said town; and to be published in the DEDHAM TRANSCRIPT, a newspaper published in said County, said posting and publication having been seven days at least before the time appointed for said view, that all persons and corporations interested for or against said petition, might then and there appear and be heard if they saw fit.

And on the said tenth day of September, 1963, the Commissioners, Russell T. Bates, Clayton W. Nash and John Francis Murphy, met at the time and place specified in said order, when and where the petitioners appeared and the Town of WESTWOOD was represented by its Selectmen; and the said Commissioners then viewed the route and premises and heard all persons and corporations interested; and no party interested objected; and thereupon the said Commissioners did adjudge that common convenience and necessity require that the said way be relocated as prayed for in said petition.

And thence the same was continued and adjourned from time to time to this meeting.

And now the said Commissioners do establish the grade and limits of slope on a basis of four feet horizontally to one foot vertically where the variation of grade is less than three feet and two feet horizontally to one foot vertically where the variation of grade is over three feet.

And now the said Commissioners do take for highway purposes all the easements and right incident to the construction of a public highway, as laid out by the Norfolk County Commissioners by Return dated February 27, 1900, for the protection of said construction and the maintenance of slopes adjoining said construction as prayed for in said petition, all as shown upon a plan entitled "Plan showing Profile and Slope Easements

For the construction of a portion of High Street, Westwood from Pond Street to about 400 feet easterly of Westland Avenue as made by the Norfolk County Commissioners, by Return dated October 29, 1963. Horizontal Scale: 1 inch = 40 feet. Vertical Scale: 1 inch = 8 feet. Wallace S. Carson, County Engineer." and signed by "Russell T. Bates, Chairman" which plan is filed herewith and made a part of this Return in accordance with the provisions of Chapter 79 of the General Laws and all acts and amendments thereof and in addition thereto.

And it is determined by the Commissioners, that the Inhabitants of the Town of WESTWOOD do within two years from the date of this Return and Order complete said way in a thorough and workmanlike manner and to the acceptance of the County Commissioners.

And it is determined by the Commissioners that all the expenses of making the relocation of way as prescribed in this Return and Order including the expenses of constructing said way, and all land and other damages and expenses incident thereto, be paid by the Inhabitants of the Town of WESTWOOD.

And the said Commissioners have heard the proprietors of lands and property, right and interests, taken or affected by these proceedings, and have considered and estimated the damages done to the parties respectively whether by taking their property or injuring it in any manner, and having allowed by way of set off, the benefits, if any, to the property of said parties in the premises, and do estimate and determine the damages to be paid to said parties respectively in the sums hereafter named; the same to be paid to said parties respectively by the Inhabitants of the Town of WESTWOOD when the lands hereby taken and over which said way is hereby located, have been entered upon and possession taken, for the purpose of constructing said way.
