FOREWORD

This directory of retired or deceased Land Surveyor's records, (as well as those of Engineering and Surveying firms no longer in business) has been compiled by the Eastern Massachusetts Association of Land Surveyors, Incorporated; for the purpose of informing the public and our fellow professionals of the location of this often valuable material.

This directory has been compiled by listing the past Surveyor's name, dates the records cover, as well as the principle areas of the past Surveyor's practice (if available). The Custodial firms name, address, and telephone number will also be listed,

As these records are maintained by the listed Practitioners at an expense, a fee, to be negotiated with the listed Practitioner, may be charged for retrieval of any information.

Since the information contained in these records may not have been verified, no guarantee as to accuracy or completeness of the data is implied by either the listed Practitioner or the Eastern Massachusetts Association of Land Surveyors, Incorporated.

The Association will be periodically updating this Directory as new information becomes available. If records of other Surveyors not listed here are known to you, please inform the Eastern Massachusetts Association of Land Surveyors, Incorporated.
