

I certify that this actual survey was made on the ground in accordance with the Land Court Instructions of 1959 between Sept. 1, 1966 and Sept. 20, 1966

Date October 1, 1966

John P. Lienesch  
Registered Land Surveyor

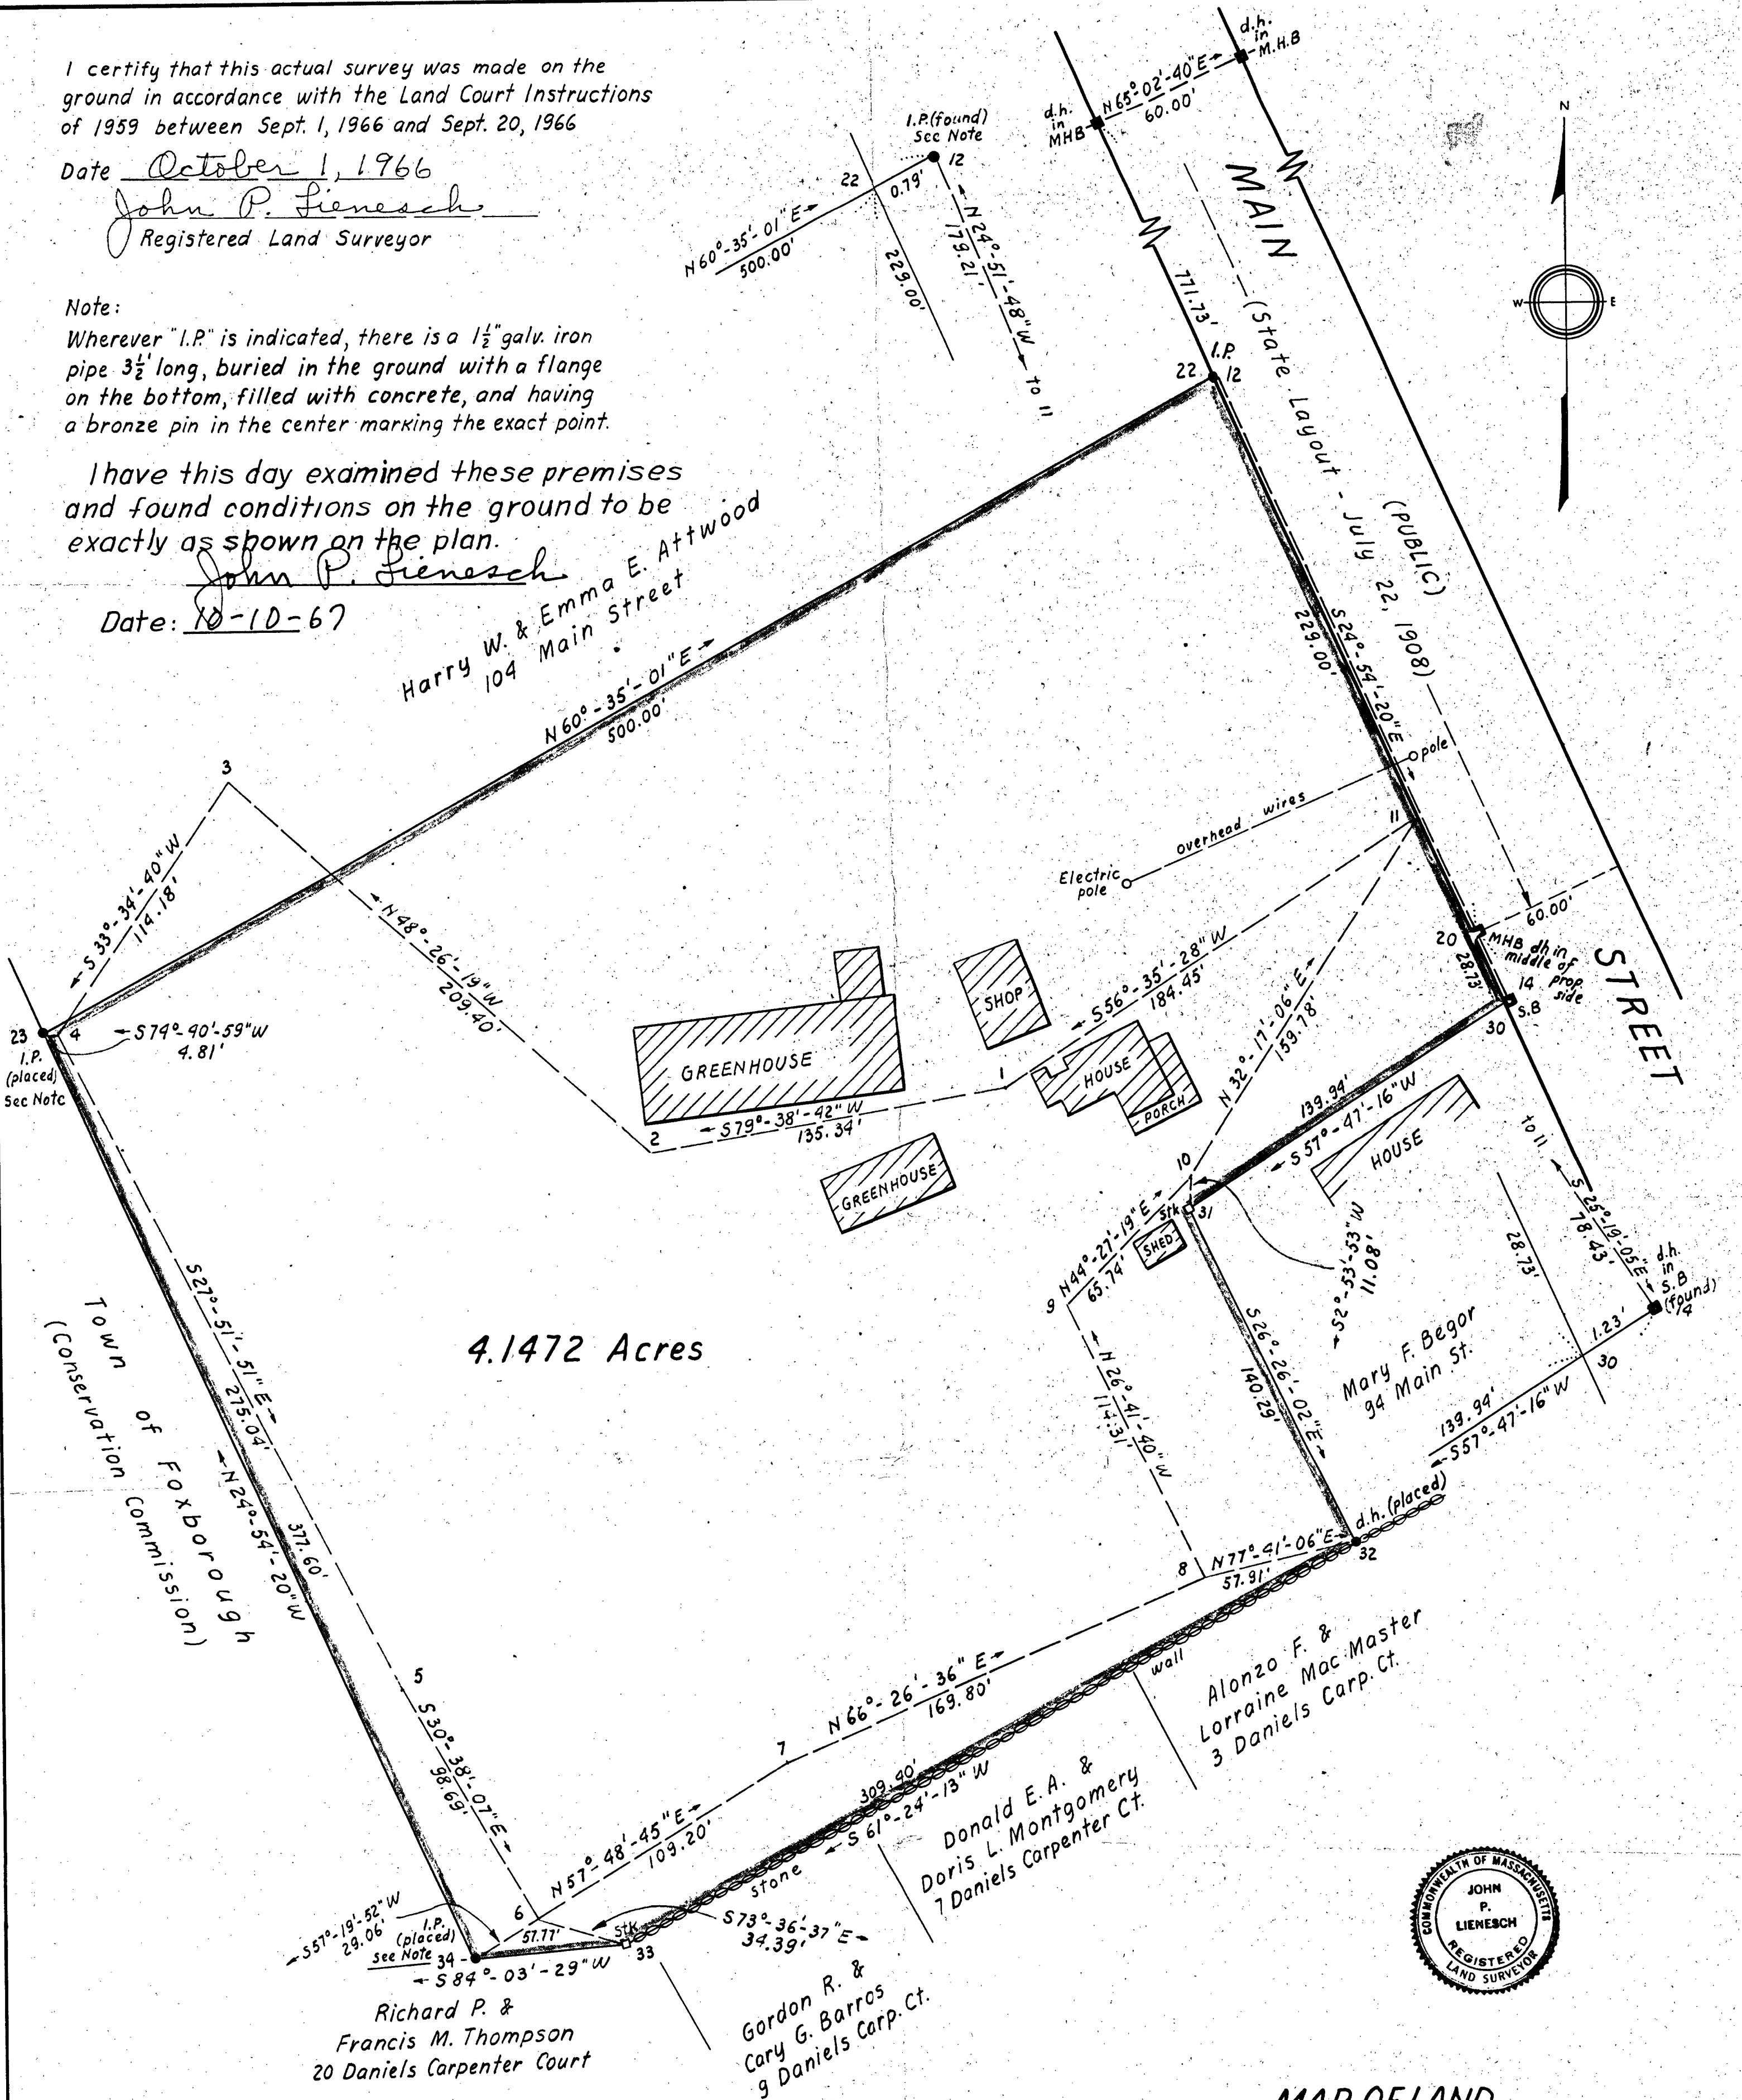

Note:

Wherever "I.P." is indicated, there is a 1 1/2" galv. iron pipe 3 1/2" long, buried in the ground with a flange on the bottom, filled with concrete, and having a bronze pin in the center marking the exact point.

I have this day examined these premises and found conditions on the ground to be exactly as shown on the plan.
