RE: Petition Amendment to the Discontinuance a portion of Page Street in Stoughton, MA

To the Honorable County Commissioners of the County of Norfolk,

We are attaching a formal amendment to the originally submitted petition requesting that the portion of the "Area of Discontinuance" depicted as "Discontinued Parcel 'A'" containing 6,751 square feet (as depicted on the discontinuance plans) shall be discontinued as a County Highway and thereafter only this section of the way (Page Street) so discontinued shall be a Town Way. The original petition did not have language converting "Parcel A" to a Town Way. Since the public will have access through this area, we feel this amendment is warranted.

At our meeting on April 24th, the Stoughton Select Board voted in favor of this amendment to the petition and respectfully requests your support to move this forward. If you have any questions regarding this, please feel to contact me directly.

Respectfully,

Stephen M. Cavey
Chairman, Select Board
